POOL COVER
SPECIALISTS®

2015

BEAUTIFUL, SAFE & GREEN™

THE MOST BEAUTIFUL POOLS DESERVE A POOL COVER FROM POOL COVER SPECIALISTS™

System Size Charts

These Size Charts are standard guidelines and do not reflect all pool sizes, configurations, special features, etc. If you are not sure if a pool can be covered, or if it is larger than the Size Charts below, don't guess or assume it cannot be covered...let our experts help you!

**For ANY questions or help
Please call 800-369-5152**

MAXIMUM INFINITY 4000™ SIZES																														
Track Length	Track Space																													
		15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

Y = Yes this size can be done																														
H = Hydraulic - this size/weight cover needs to be a hydraulic infinity system																														
8 = Must use an 8" roll-up tube																														
Y = Standard Beefed up Infinty on Roids.																														
4= Must use a 4" leading edge.																														
BLANK = Too big, cannot be done																														
The Maximum size w/t number are all Maximum sizes and must be Hydraulic systems																														
Smaller sizes than shown can be done.																														
Maximum sizes are always for the perfect rectangular pools. No deck drag, no vanishing edges, no cantilevered decks, etc.

PCS Control Board Descriptions

Part #10720

Motor Controller, 110V Dual Polarity

The 220V dual Polarity version of this board is part #10713.

Part #10714

Motor Controller, 110V Dual Polarity for Hydraulic Motors (or motors sold before 1999)

NOTE: The 220V version of this board is part #10715.

To identify whether your motor controller is a 110V or a 220V, examine the transformer pins, as shown below. Note: Controller may be potted and unable to view controller pins.
